To be effective, your infringement notification must include the following:

To be effective, a Counter Notification must be a written communication provided to CONNECTYX’ designated copyright agent, and must include the following:

2. Identification of the material that has been removed or to which access has been disabled and the location at which the material appeared before it was removed or access disabled;

Upon the copyright agent’s receipt of a Counter Notification containing the information as outlined in 1 through 4 above, the DMCA provides that the removed material will be restored or access re-enabled and we will comply with this requirement as required by law, provided that the designated agent has not received notice from the original complaining party that an action has been filed seeking a court order to restrain the subscriber from engaging in infringing activity relating to the material on our network.
