

Connectyx Technologies Rolling Out MedFlash to National Coalition of Eye Care IPA's (NCECIPA)

MedFlash(R) is a Preferred Vendor of the National EYEPA Coalition's Twenty-Seven State IPAs Representing Approximately 4,500 Doctors - 4,200 OD's and 300 MD's

STUART, FL--(Marketwire - 05/26/11) - Connectyx Technologies Holdings Group, Inc. (OTCB:CTYX) ("Connectyx"), www.connectyx.com, manufacturer and distributor of the MedFlash®, an innovative Personal Health and Wellness Management System (ePHM) for maintaining personal health records (PHR), announced today that the Company has completed three instructional Webinars for all 27 State Coalition Board members of the National Coalition of Eye Care IPA's (NCECIPA) as part of the rollout of MedFlash. Connectyx has launched the Eye Coalition MedFlash website for the signups of independent practices and has begun an e-mail marketing drive to the NCECIPA's 4,500 doctors. Connectyx will be attending the NCECIPA Tennessee State Meeting in Nashville in July in support of the MedFlash/NCECIPA marketing partnership.

As previously announced, Connectyx is a preferred vendor of the National EYEPA's twenty-seven state Independent Practice Associations (IPA) which represent approximately 4,500 doctors - 4,200 OD's (Doctors of Optometry) and 300 MD's and a total of 6,600 physician locations.

Ronn Schuman, Connectyx, President & CEO said, "The Webinars we conducted with all twenty-seven state Coalition Board members was an instructional and informational venue on the MedFlash Personal Health and Wellness Management System. Questions from how to sign up patients for MedFlash to how long it takes for a practice that adopts MedFlash to have a website were answered. It was clear from the participation and interest expressed that our relationship with NCECIPA will be very successful as we approach the National Meeting in July. "

Dan Dieterichs, O.D., President of the National Coalition from Total Eye Care of New Mexico, said, " I am very excited about the MedFlash program and the opportunity it offers me to help my patients manage their health. My practice just completed our MedFlash installation and staff training last week and we look forward to sharing MedFlash and its many benefits with our patients."

Dave Reynolds, OD, FAAO, Executive Director, National EYEPA Coalition stated, "With Connectyx rebating 25% of MedFlash membership's revenues to the National and State EYEPA Coalitions to promote vision care and education, we are confident that the MedFlash program will be well-received by our many members in our State IPA networks. The easier it is for patients to access their personal medical records in support of their own personal wellness plans, the better it is for patients and practitioners alike."

The MedFlash Doctor / Patient Portal facilitates the doctor-patient relationship by providing a

communication loop which enables the doctor's office to asynchronously communicate with their patients, both individually and collectively. MedFlash will use its current Internet platform to further empower the patient and eye care specialist so the patient can receive communications and information from the doctor's practice. Some of these features will include, but not be limited to:

- recording appointment schedules and reminders,
- tracking treatment compliance and,
- receiving targeted health information.

The MedFlash Doctor / Patient Portal will be co-branded with the healthcare practitioner who provides it to their patient. Patients will be able to use features that receive information from other doctors and allied providers, but the initial healthcare practitioner will remain the central focal point featured in the patient's health and wellness portal.

From the patient's perspective, the MedFlash portal creates the ideal communication tool between doctor and patient allowing the patient to engage in self-care between healthcare practitioner and doctor visits and enabling the back office to communicate asynchronously with patients, reducing missed appointments, misinformation, patient non-compliance, duplicated efforts, telephone calls and unnecessary faxes. By publishing selected information to the portal, the healthcare practitioner office is in total control of the dissemination of patient information.

To be added to the corporate e-mail database for corporate press releases and industry updates, investors and shareholders are requested to send an e-mail to investorrelations@connectyx.com

MedFlash ® Features and Benefits

The MedFlash® PHM Portal features a 24/7/365 call center, a smart phone application and a USB flash drive. The MedFlash® PHM provides additional member benefits and services including instant access to a subscriber's Emergency Medical Profile and Personal Health Record in the event of an accident or a medical emergency. First Responders such as police, emergency medical technicians (EMT's) and firefighters have access to time critical information for victims who may be comatose or unable to communicate pertinent medical history information. The MedFlash® PHM can be accessed on any computer, whether in an ambulance or an emergency room, securely and with complete privacy via the Internet or by use of the USB drive. Lifestyle and wellness features are delivered to members that have the potential to result in significant health benefits to members following the healthcare advice. With the increasing focus on cutting costs and risk mitigation by both employers and insurers, the MedFlash offers a low cost addition to the various initiatives necessary for maintaining and reducing costs of current healthcare delivery systems. For more information, see www.medflash.com.

About Connectyx

Connectyx provides unique products for the healthcare market including MedFlash®, the electronic Personal Health Manager (ePHM). Compatible with Google Health and Microsoft's Health Vault, the MedFlash® ePHM is an easy-to-use Personal Health and Lifestyle Manager that is accessible using a powerful web portal suite. The MedFlash® ePHM portal also features a 24/7/365 call center, a smart phone application and a USB flash drive. The MedFlash® ePHM provides member benefits including instant access to your Emergency Medical Profile and Personal Health Record in the event of an accident or a medical emergency. Whether traveling, at work, or at home, First Responders have an invaluable advantage when they have access to this time critical information. Far more than just an emergency flash drive the MedFlash® PHM can be accessed on any computer, securely and with complete privacy. There are also lifestyle and wellness features that provide significant health benefits to members and risk mitigation for employers and insurers alike. Connectyx products are developed with the needs of patients, families, doctors and First Responders in mind. About NEYEPA www.nationaleyepa.com

The National EYEPA Coalition was officially created in 2003 by bringing together an assemblage of Independent Professional Associations (IPAs) throughout the United States. The National Coalition is comprised of twenty-seven state IPAs representing approximately 4,500 doctors -- 4,200 ODs and 300 MDs. IPAs are being added and should number at least thirty state IPA's by the end of 2011. The Mission of the National Coalition is to represent, assist and facilitate doctor owned and operated IPAs in their pursuit of quality eye care for the public. Likewise, the purpose of the coalition is to enhance and facilitate reciprocal relationships between the various state IPAs and to cooperate in solving mutual concerns of the state eye care IPA members. The primary Objective, tied with the Mission and Purpose of the National Coalition, is to help and to assist the independent eye care practitioner to remain independent, survive and thrive in today's and tomorrow's health care arena.
