

Connectyx Technologies Obtains Access to MediGuard for MedFlash® Subscribers

Drug Safety Monitoring Website Helps Patients Reduce Contraindication Risks

STUART, FL -- (June 15, 2011) - Connectyx Technologies Holdings Group, Inc. (OTCB:[CTYX](#)) ("Connectyx") announced today that it will provide access to [Quintiles' Mediguard.org](#) drug safety monitoring website as a value-added service for its MedFlash® subscribers.

Connectyx manufactures and distributes MedFlash®, the nation's premier Personal Health and Wellness Management System (ePHM) for maintaining personal health records (PHR). The MedFlash® ePHM is an easy-to-use Personal Health and Lifestyle Manager that is accessible using a powerful web portal suite. The MedFlash® ePHM portal also features a 24/7/365 call center, a USB flash drive and a smart phone application. The MedFlash® ePHM provides members many benefits such as access to MediGuard, including instant access to your Emergency Medical Profile and Personal Health Record in the event of an accident or a medical emergency.

An increasing number of patients receive medication prescriptions from multiple physicians and often fill those prescriptions at multiple pharmacies, underscoring the importance of maintaining accurate drug records critical and, in some instances, life-saving.

Through an agreement with MediGuard, MedFlash subscribers will now receive access to the [www.MediGuard.org](#) website which helps 2.5 million registered users maintain updated records of all their medications. The MediGuard web-based application crosschecks users' medications for possible side effects and contraindications which can occur when medications are mixed, sometimes with life-threatening results. Subscribers are then alerted to possible problems.

Ronn Schuman, Connectyx CEO, said, "This feature reinforces our commitment to providing valuable tools and resources that empower MedFlash members to become more proactive in managing key aspects of their health records including health benefits, wellness tools and their individual health profiles. We are excited about joining the more than 2.5 million registered users on the MediGuard.org website. "

MedFlash® Features and Benefits

The MedFlash® PHM Portal features a 24/7/365 call center, a USB flash drive and a smart phone application. The MedFlash® PHM provides additional member benefits and services including instant access to a subscriber's Emergency Medical Profile and Personal Health Record in the event of an accident or a medical emergency.

First Responders such as police, emergency medical technicians (EMT's) and firefighters have access to time critical information for victims who may be comatose or unable to communicate pertinent medical history information. The MedFlash® PHM can be accessed on any computer, whether in an ambulance or an emergency room, securely and with complete privacy.

Lifestyle and wellness features are delivered to members that have the potential to result in significant health benefits to members following the healthcare advice. With the increasing focus on cutting costs and risk mitigation by both employers and insurers, the MedFlash offers a low cost addition to the various initiatives necessary for maintaining and reducing costs of current healthcare delivery systems. For more information, see [www.medflash.com](#).
